

## Quick Guide

### Assess your virtual client using these tools:

1. Work through the **assessment process** in the core areas, in any order. But we recommend starting here:
  - a. **Case History** – interact with the virtual client or caregiver by selecting appropriate questions or asking your own
  - b. **Collaborators** – consult other professionals and family members, ask novel questions and review reports
  - c. **Clinical Hypothesis** – record your hypothesis and action plan
  - d. **Assessments** – administer age-appropriate standardized and non-standardized tests and procedures
  - e. **Diagnosis** – select your diagnoses
  - f. **Recommendations** – write client specific recommendations

You are scored based on the appropriateness of your decisions.

2. The **clipboard** saves all of your decisions for review.
3. **Save/Exit** your case to resume at a later time.
4. **Submit** your case upon completion and print your final report.
